

# Generation 1989/1990

## Interview partners for exhibition project wanted

Were you born in the year 1989 or 1990? Do you live or work in Dresden? Do you want to join an exciting exhibition project, where you will not only be interviewed but also might become a creative curator yourself and could work in a team?

**The Brücke/Most-Foundation Dresden is currently looking for interested and active interview partners from all over the world for an interactive/participative/ multimedia exhibition project about life reality of 1989/1990 born youngsters in Dresden!**

In form of a workshop (most likely in November) in the FabLab Dresden we want to create together an exhibition concept and a teaser for the exhibition opening in December. If you like, your story can be published on the internet portal of STADT/leben ([www.stadt-leben.com](http://www.stadt-leben.com)), one of the cooperation partners of the project.

**Interested? Questions? Just write a short e-mail to Sonja Riehn under [bildungpk@bmst.eu](mailto:bildungpk@bmst.eu)**

We are looking forward to your participation!
